ITEM-201: Document Amendments Related to the 2004 Interim Financing for the Wastewater System.

STAFF’S RECOMMENDATION:

Introduce the following ordinance:

(O-2007-1) INTRODUCED, TO BE ADOPTED TUESDAY, AUGUST 1, 2006

Introduction of an Ordinance approving the form and authorizing the execution and delivery of a Second Supplemental Subordinated Indenture and a Second Amendment to 2004 Supplement to the Master Installment Purchase Agreement and approving certain other Agreements and actions in connection therewith.

NOTE: 6 votes required pursuant to Section 99.

STAFF SUPPORTING INFORMATION:

The City's PFFA privately placed \$152 million of Bonds in June of 2004, to finance the construction and renovation of wastewater facilities required by regulatory agencies. The Bonds were purchased by Bank of America, N.A. (Bank). Principal amortization on the Bonds will begin on March 15, 2007, and conclude on December 15, 2011. The City's current financing plan calls for retiring the privately placed Bonds with an issuance of long-term debt.

At the time of the initial sale of Bonds to the Bank, the Bank imposed a covenant prohibiting the City's Metropolitan Wastewater Department (MWWD) from incurring any additional wastewater system debt without either 1) paying off the Bonds or 2) receiving Bank approval for the additional debt. In 2005, MWWD had an opportunity to obtain a \$12.1 million twenty-year fixed rate loan (at an effective rate of approximately 1.8%) from the State and requested Bank approval to enter into the loan. The Bank subsequently agreed to the City's request to accept the \$12.1 million State loan and waived the covenant regarding additional debt for that loan only. This waiver was documented through certain amendments to financing documents for the Bonds, which were approved by the City Council on October 24, 2005. In addition to authorizing acceptance of the \$12.1 million State loan, the financing document amendments enabled the City to restructure the amortization of the Bonds.

MWWD has recently learned that two additional State loans for approximately \$18 million can be obtained. The State loan terms would be similar to the previous \$12.1 million loan. If obtained, State loan proceeds would be used to reimburse costs for two completed wastewater system projects (\$4,761,908 for Point Loma 4th pump modifications and \$13,281,530 for Point Loma S1 & S2 digester upgrades) enabling MWWD to free up money for other needed wastewater capital projects.

The City Council previously adopted Ordinances (O-19139 on January 7, 2003 and O-19238 on November 17, 2003) authorizing MWWD to enter into loans with the State for these projects.

The City again requested the Bank's approval to acquire the two new State loans and allow for the possibility of obtaining additional loans from the State in the future. The Bank has agreed to allow MWWD to obtain the two new loans and additional State loans provided that 1) debt service on the Bonds is not subordinate to debt service on the new loans and 2) that the total amount of State loans executed by MWWD since the Bonds were issued in 2004 not exceed \$50 million. If the two currently contemplated loans are executed, there would be approximately \$20 million of additional State loan capacity remaining. It is recommended that MWWD pursue future State loan opportunities to optimize wastewater system cash flow, reduce borrowing costs and hasten the construction of required wastewater system infrastructure.

In order to facilitate acceptance of the two new State loans and allow for the possibility of obtaining additional State loans, the City Council must authorize amendments to financing documents related to the Bonds. This action would approve by ordinance a Second Supplemental Subordinated Indenture and a Second Amendment to 2004 Supplement to the Master Installment Purchase Agreement, both to be dated as of August 1, 2006. The ordinance would further authorize the Mayor, the Chief Operating Officer, or the Chief Financial Officer to take any and all actions necessary to execute the aforementioned financing documents for the Bonds. Once the amended financing documents have been executed, MWWD will be authorized to accept approximately \$38 million of new low-interest rate loans from the State (\$18 million now and as much as \$20 million in the future).

FISCAL CONSIDERATIONS:

This action would authorize necessary amendments to financing documents related to the Bonds for the purpose of acquiring two new low-interest rate State loans and allowing for the possibility of obtaining additional State loans subject to certain limitations. If obtained, State loan proceeds would be used to reimburse the costs of two completed wastewater system projects (\$4,761,908 for Point Loma 4th pump modifications and \$13,281,530 for Point Loma S1 & S2 digester upgrades) enabling MWWD to free up money for other needed wastewater capital projects. Low-interest rate State loans enable MWWD to optimize wastewater system cash flow, reduce borrowing costs and hasten the construction of required wastewater system infrastructure.

The ordinance introduced by this action specifically authorizes payment to the Bank of not to exceed \$20,000 (from MWWD Sewer Fund 41509) for document amendment and legal fees. Fees for the City's bond counsel (Nixon Peabody, LLP) and financial advisor (Montague DeRose and Associates, LLC) have been previously authorized and will not exceed \$30,000. The total cost for amending the financing documents for the Bonds will not exceed \$50,000 and will be paid by the MWWD Sewer Fund 41509.

PREVIOUS COUNCIL and/or COMMITTEE ACTION:

The City Council previously authorized MWWD to take action to proceed with the two referenced State loans for: 1) Point Loma 4th pump modifications (Ordinance # 19139 adopted

on January 7, 2003) and 2) Point Loma S1 & S2 digester upgrades (Ordinance #19238 adopted on November 17, 2003). Subsequent changes to the State loan program resulted in changes to loan document language that delayed the City's ability to proceed with the loans until the latter part of 2005. As referenced above, the City Council similarly authorized necessary amendments to financing documents for the Bonds on October 24, 2005 (Ordinance #19450) for the purpose of restructuring principal amortization and acquiring the \$12.1 million State loan.

COMMUNITY PARTICIPATION AND PUBLIC OUTREACH EFFORTS:

None

KEY STAKEHOLDERS & PROJECTED IMPACTS (if applicable):

Low-interest rate State loans result in reduced borrowing costs and accelerated infrastructure construction that ultimately benefits wastewater system ratepayers. Business entities involved in this transaction are Bank of America, N.A. (Bank), White & Case, LLP (Bank's counsel), Nixon Peabody, LLP (bond counsel) and Montague DeRose and Associates, LLC (financial advisor).
